

WIRE BENDING MACHINE

FRX

FLEXIBLE CNC BENDING MACHINE

Ø 0,8 to 6 mm

Ø .03 to .25"

WIRE BENDING MACHINE

FRX

MAIN FEATURES

- Just-in-time production of small to medium size quantities
- Quick production changeover
- Quick and easy programming
- Laser probe for precision parts
- Multifaceted tool also for complex parts (multi-axis interpolation)

CONTROL

- Industrial PC based software
- Multilingual dialog and programming interface on a 19" touch screen
- Auxiliary functions and availability of inputs/outputs
- Program simulation
- Internet connection : remote assistance and chat room
- Auto-corrective feedback from 3D-measuring device

DIMENSIONS

- 1450x4250x2050mm
- 4.76x13.94x6.725"

WEIGHT

- 4000 kg
- 8900 lbs
